Nature Of Opinion

Docket Number: E-01933A-15-0322

Docket Position: Against

It sounds to me that the intention here is to penalize those that have solar energy by charging an additional "tariff"? I am retired, and live on a fixed income, as do many others here in Tucson. I realize there are many residents that have solar that live on a higher income. I do not. I feel I am paying a tremendous amount to lease the solar on my roof, and any additional charges will be a burden to me. I am helping the environment by producing clean energy, and feeding what I don't use back into the grid. I don't think it is fair to bill me more for it. Respectfully, Ilaann White
